Are you working toward a retirement that is no longer in sight?

Do you need assistance managing debt?

Is your budget not balancing?

Have you been affected by the economic crisis?

Do you have bad credit or NO credit and want to buy a home?

Are you tired of the Government not getting the job done?

Do you feel like giving up?

In these trying times, we are seeing record numbers in the loss of business, jobs and homes. Families are being displaced from their homes and children are going hungry. Americans are losing direction and don't know what or who to believe in.

Is the American dream over???

Hi, my name is Mike Fish, Founder, President and CEO of Sound Life Education. The answer to that question is, Absolutely Not! The Government runs our country, are we going to let them run our life? Absolutely Not! Are you going to stand by and let people take your dream away? Absolutely Not!

Folks, we are in one of the best economies I have ever seen. The old market was the bad one. Our kids could not have afforded a home at the rate we were going. Today, housing is cheaper, interest rates are lower and mortgage payments are now 40 to 70% lower then before the decline.

So you ask, "Mike, WHAT'S THE PROBLEM?! Why are we all struggling?" I am glad you asked. The answer is ...WE THE PEOPLE. We have lost our appetite. We are tired. We feel it's too late to start over. WRONG!

Nothing has ever been accomplished alone. It's always been... WE THE PEOPLE.

You are invited to our free seminar. Come see how you can make a difference and together we can have Our Dream.

Please take a minute and send this to everyone on your contact list so NO ONE GETS LEFT BEHIND.

I know what it's like to loose everything. You owe it to yourself not to miss this life changing event. Come see what I've learned.

See you there,
Mike Fish
